### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The closest prior art as cited teaches glyoxylated polyacrylamides with the same monomers as required by applicants' claims. The claimed process is neither taught nor rendered prima facie obvious from the prior art and applicants have shown that the claimed process results in polymers unexpectedly improved over those of the prior art. Applicants' claims are, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
